Already have an account?

You will be sent a verification code to enter here

If you get a message after entering the verification code that says "sorry, something went wrong" it is likely because you already have an account in Brightwheel. Go back to "forgot password" and try again.

## Contacts

Scroll down in your child's profile to get to the contacts section. Here you will make sure information is correct, and will update any authorized pickups so they can have their own code.
